Color Coded Relief Valves Now Available

The relief pressures on a new series of relief valves from Industrial Specialties Mfg., Inc. are easily identified by the color of the valve.

Offered in 1/8 and 1/4 male NPT and 1/8 female thread, the valve housing is molded of Polyvinylidene Fluoride (PVDF), an extremely stable and pure commercial resin. Special end sizes are also available.

The internal relief material is nylon with a Buna-N seal. Also available: polypropylene or PVDF bodies and optional Viton seals.

Relief valve color codes are: Orange - 3" H₂O, Red - .05 PSI, Royal Blue - 1 PSI, Lime Green - 1.5 PSI, Cambridge Blue - 3 PSI, Moss Green - 6 PSI, Yellow - 10 PSI.

Various combinations can be offered and free samples are available.
