## **New Pickup Filters**

### **Introduced**

A line of lightweight, compact, pickup filters are now available from Industrial Specialties Mfg., Inc.

Filters are made of polypropylene with 74, 149 or 177 micron screens. 3/16" or 1/4" I.D. tubing can be adapted. Male or female threads or luer quick releases for removing and cleaning or replacing are available.

Mounted on the end of tubing, these filters protect mechanisms while cleaning fluid drawn through the tubing. Check valves can be added to operate as a foot valve.

The offsetting feet in the filter assure that liquid passage can't be blocked.

For further information, contact: Industrial Specialties Mfg., Inc., 2741 W. Oxford, Unit #6, Englewood, CO 80110. Phone: (303) 781-8486. FAX: (303) 761-7939.
