High-Flow In-Line Filters Announced

A new series of large in-line filters for air, vacuum or liquids is now available from Industrial Specialties Mfg., Inc.

Ideal for chemical solutions, ink, water, oil, gasoline, fuel and alcohol, these high-flow filters are molded in polyoxymethylene acetal (POM) with filter frames that are color coded to indicate filter micron size. Filters are available in 20, 65, 105, 150 and 250 microns in nylon or polyester screens.

Filters are offered with 1/4, 5/16 and 3/8 barbs, 10-32, 1/4-28 and 1/8 female threads and 1/16 and 1/8 male threads. Desired ends can be mixed and matched.

The entire filter can also be color coded if desired. Samples are available.

For more information, contact: John Scott, Industrial Specialties Mfg., Inc., 2741 W. Oxford, Unit #6, Englewood, CO 80110. Phone: (303) 781-8486. FAX: (303) 761-7939. website: <http://www.industrialspec.com>.
